Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicants' Representatives argued that the 112 rejection should be removed as the variation is well known in the art, to which the Examiner contended that "clicking and dragging" is more specific means of text selection than the specification provides support for. Applicants' Representatives further presented language for amending the independent claims to provide for a command to be provided from within the context block, to which the Examiner agreed differed from the context block of Samar, but cautioned Bibayan or Donoho being applied.
